**WATERPROOFING • COATING • FLOORING • CONCRETE REPAIR
• GROUTING • STRENGTHENING • STABILISATION**

FLOORING SOLUTIONS

Architectural, Commercial, Industrial applications that consider: Aesthetics, Abrasion, Thermal Shock, Impact Chemicals and Contamination.

Economical clear finishes - chemical - epoxy - urethane

Deep grind - hone and urethane seal

AGGRESSIVE HIGH GRIP AND SLIP RESISTANT DURABLE SURFACES - RAPID INSTALLATION

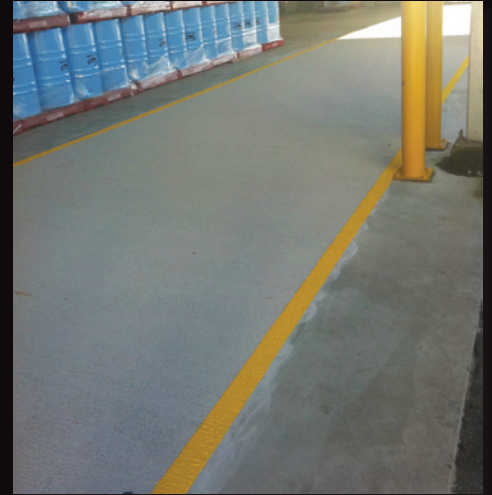

The challenge: to replace worn out surface with high grip durable surface within 9 hours before resuming traffic.

Challenge met and 5 years later the surface remains sound.

Kevlar reinforced - high impact - high grip surface are the essential requirements for safe landing of helicopters on high speed vessels for the US Navy.

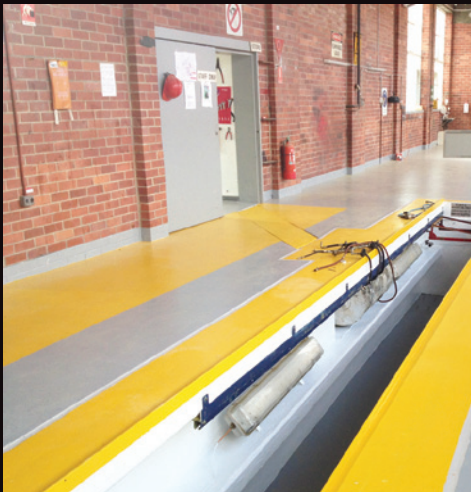

Fork truck defined lane ways exposed to weather. Aggressive slip resistant surfaces ensures safe high speed fork truck movement in all weathers.

HEAVY DUTY ROLL COAT EPOXY FLOORING FOR WORKSHOPS, MORTUARIES, COOL ROOMS, STORES, KITCHENS AND MUCH MORE.

HAZARD IDENTIFICATION AND REDUCTION

With our epoxy and polyurethane cement screed ranges we offer clear demarcation colouring to identify hazards, traffic risk, pedestrian pathways and much more.

**INTERIOR AND EXTERIOR DECORATIVE FINISHES - DESIGNS TO EXACTLY MEET YOUR
THEME AND COLOUR SCHEME**

**RESILIENT, SEAMLESS AND ULTRA HYGENIC FINISHES. COMFORT UNDER FOOT WHERE
LONG TERM STANDING IS REQUIRED. IDEAL FOR LABORATORIES.**

**RESILIENT, SEAMLESS, HIGH TRAFFIC AND WATERPROOF. IDEAL FOR CARPARK TOP DECKS
AND SWIMMING POOL CONCOURSES WHERE PLANT ROOMS ARE UNDERNEATH.**

POLYURETHANE CEMENT SCREEDS - EXTREME DURABILITY FOR EXTREME ENVIRONMENTS

Installed to the majority of industrial processors of dairy, meats, beverages, fish, chemicals and minerals within Tasmania.

Heavy duty screed for 900m² distribution centre and a weekend to install

Industrial Kitchen in excess of 3,000m²

Cheese production - reviewing a floor after 12 years intensive service - looks great

Beverage production, meat processing

Minerals processing. 600°c pellet spillage on floor, no damage.
